Directory of Major Employers

The newly revised Directory of Major Employers is the only comprehensive guide listing companies in Orange County employing 25 or more workers. We've compiled the index by surveying businesses by phone, email, and fax.

As the economic development agency for the County, the Orange County Partnership uses this guide to provide prospects with a glimpse of our economic strength and diversity and to provide our community with a snapshot of our business sector. Information on each company consists of company name, location, size, contact, SIC, area of specialization, and headquarters.

We now have the ability to revise this document to keep all information accurate and up-to-date. If you would like your business listed or have changes, please call or email the Orange County Partnership at 845-294-2323 or contact us at info@ocpartnership.org.
